📍 Addis Ababa, Ethiopia | 📞 (+251)968-318-913 | ✉️ abubekertaha3@gmail.com | 💼 [Linkedin](#) | 🐙 [Github](#)

PROFILE SUMMARY

Innovative Full-Stack Developer with 2+ years of experience designing and delivering scalable, user-focused web applications using Next.js, React, Node.js, MySQL, and Tailwind CSS. Skilled in backend API development, database design, and front-end optimization, with a strong foundation in data structures and algorithms. Committed to writing clean, maintainable code and creating impactful digital solutions.

PROFESSIONAL EXPERIENCE

Africa to Silicon Valley

Addis Ababa, Ethiopia

• Front-End Developer

Jun 2025 – current

- Designed and implemented responsive front-end features using React.js, Next.js, and Tailwind CSS, improving functionality, accessibility, and page load speed by 20% for a web app with 800+ users.
- Contributed to real-world projects at A2SV, applying Data Structures and Algorithms to solve complex challenges and gaining experience aligned with top software engineering roles.

• Software Engineer — Africa to Silicon Valley (A2SV, Ethiopia)

Oct 2024 – May 2025

- Developed advanced skills in **Data Structures** and **Algorithms** hands-on coaching and real-world application within A2SV, which has placed over **100+** alumni at leading tech companies such as **Bloomberg, Amazon, Google, Uber**
- Leveraged hands-on coaching and real-world application within A2SV; became a top performer in the cohort of 500+ students, strengthening abilities to excel in high-impact roles in the tech industry.

• Website Developer — Info Tech Company (Remote, India)

Sep 2024 – Nov 2024

- Created an interactive web-based game along with a comprehensive admin dashboard utilizing HTML, CSS, and JavaScript; reduced load times by 40%, enhancing user experience and retention among players.
- Constructed real-time interactive feature on admin dashboard using React.js and Node.js, resulting in a 40% improvement in data processing speeds and enhanced user experience scores.
- Managed version control and project tracking using GitHub, following best development practices.

Technical Projects

• Full-Stack Developer, JobHive (Personal Project)

Jun 2025 – current

- Built a scalable job board using React, Next.js, Tailwind CSS, and MySQL with job posting, search, and authentication.
- Optimized queries and UI for 30% faster load times and 25% higher engagement in testing.

• Full-Stack Developer, StaffPro – Employee Management System (Personal Project)

Jan 2025 – Feb 2025

- Architected a secure employee management system leveraging React, Tailwind CSS, Node.js, Express, and MySQL, resulting in a streamlined user experience and 35% faster data retrieval speeds.
- Added role-based access control and CRUD features, reducing record processing time by 40%

Skills & Technologies

- **Languages:** Python (*Advanced*), JavaScript/ES6 (*advanced*), Java (*Familiar*), C++ (*Familiar*)
- **Frameworks/Libraries:** NextJs (*Advanced*), React (*Advanced*), Node.js (*Advanced*), Express (*Intermediate*),
- **Databases/Tools:** SQL (*Advanced*), MongoDB (*Familiar*), Git/GitHub (*Advanced*), AWS

Certifications

- **Udacity – Basic Programming Nanodegree (JavaScript, HTML, CSS), 2025** – Gained foundational skills in web development and responsive UI design.

Education

- **Bachelor of Science in Electrical and Computer Engineering**, Addis Ababa University – *Graduated 2025*
GPA: 3.28 /4.00

- **Relevant Coursework:** Data Structures & Algorithms, Software Engineering, Object Oriented Programming , Computer Architecture
